Orientation was crazy. We had meetings with the Activities Director, meetings with the President, meetings with the Chaplain. So much was going on that I didn't even realize that I had bid a tearless (for me) farewell to my family until an hour later. They were gone.

I had expected to meet more girls sooner, but I suspect part of the reason I hadn't is because of my personality. In some situations I am quiet and shy and in others it's easier for me to open up and be myself. I had promised myself I'd be a "new woman" and greet every single person I met with an incredibly enthusiastic "Hello, how are you. Nice to meet you. Yes, it's very interesting that I am from Vermont and happened to choose Saint Mary's as my college. . ." I've never believed in the expression, "easier said than done," so much.

I didn't realize I'd have so much free time in my schedule. I only have one class on Tuesdays and Thursdays. This was a nice surprise. And I had no idea that my roommate and I would get along so well so quickly. I was worried about that for a while. It was hard at first since she's attended Saint Mary's for two years already and knows virtually everyone. Since I knew no one it worried me to see her go visit her friends so much. I completely understood that she wanted to see them, but for some time it seemed the whole year would be like that. Right now, however, it seems like we've known each other for years.

I wish I had known how much money I'd need. I hear it every year. A friend will go away to school and complain that she has no money. I always promised myself that wouldn't happen to

And I thought I came prepared. (Ha!)

That's All She Wrote

Stagecoach 1996 Volume 98 900 Hillsborough Street Raleigh, North Carolina 27603 Enrollment-371 (919)828-2521 ur individual handwritings are as distinctive as our very own memories. Writing charts for us the years we spend in elementary school, middle school, high school. Friends and family recognize our familiar scrawls with a smile and know immediately who wrote them. These same people form the core of our earliest and fondest memories. Yet, from diverse backgrounds we come together at a place on the continuum where we are propelled forward by the mysteries of the past toward the wonders of the future. This book combines written words from women who preceded us, with our memories of the most recent past and melds them into a collective experience we can call up with a glance.

A map is a tool which helps us move from one point to another. We will start at the beginning, when, a little shy, a lot apprehensive, but enthusiastic nonetheless, we arrived for orientation. Stretched out in front of us were endless opportunities to learn from all the countless people we were going to come in contact with-roommates, hall mates,

local friends, faculty, staff and an array of incredible experiences. The map twisted and turned and sometimes veered off into directions we were not prepared for. But surprisingly, there was always someone to gently pull us back onto the right track. Always! If it ever briefly appeared that we might be lost, suddenly, out of the mist there was a guide. Always!

On a clear, sparkling day in May graduates dress in white and walk around the circle and straight through the grove, among the people we have met along the way and among the ones we have always known. The laughter and tears that characterize this day somehow symbolize every minute that we spent in the chapel, in Smedes, in Pittman, in the library, on the soccer field, in the dining hall, on the tennis courts, in the dormitories and with each other. The end of this road, this page, graduation, is simply the start of a new journey, a new tale.

This book maps the various stories we wrote together. Even though our memories are colored by our individual personalities, we have shared the moments and the seasons, the perceptions and the growth. For now. . . that's all she wrote!

his is Sarah Clark. Dean Hume would like to see you in his office at 3:00 p.m. today!"

Your stomach sinks. You know you're going to be pierced by those steely blue eyes from the far side of the Dean's desk. When he looks at you it is clear that he knows exactly what you are thinking and that any excuse you come up with is not going to be good enough. You also know that he will be fair and no matter how high the cards seem to be stacked against you Dean Hume will have ALL

the facts, good and bad. Chances are, before the interview is over the blue eyes have softened into a twinkle that is accompanied by a broad smile and a chuckle. You leave, determined not to do anything that might possibly disappoint the Dean.

Later when you meet him at the soccer match or basketball game, he grins and pats you on the shoulder as if it is the first time he has seen you all day. Anything that happened in his office earlier is behind you both and you have the opportunity to start all

over again with a clean slate.

It is because of scenarios like this one, and a myriad of others, that the 1996 Stagecoach staff lovingly dedicates our book to a very special man who has a positive daily impact on all of our lives. He moves quietly among us, but his presence is always felt. His wisdom, compassion, and understanding seem boundless. During our stay here we are all touched by them in one way or another. This one is for you Dean Hume!

orientation felt like a giant tidal wave was crashing down. We swirled from one location to another trying to absorb all the information that was coming our way. In fact, when the ninth and tenth graders made their orientation trip to Morehead City and Atlantic Beach, there were three hypricanes skirting the coast of North Carolina. High

There was a back campus bar-b-que with a band.

There were hall sessions, handbook sessions, academic sessions, testing sessions, and get-to-know you jam sessions where we shared our bewilderment with each other and began to acknowledge with a sense of wonder that maybe we did have a place here after all.

"Y.H.C.A.!"

New high school and college students loaded onto buses and vans to hit a Bulls game and juke and jive! "Take me out to the ball game. Take me out to the park." And that is just what we did, AFTER chapel at 11:00, a picnic at 12:00, and a scavenger hunt that scattered

girls all over the campus at 2:00. Two chartered buses, both college vans and a caravan of cars headed down Instate 40 into the brand new Durham Athletic Park

right in the middle of downtown. Traffic in and around the park came to a standstill as hundreds of girls poured from the buses, vans, and cars. We staked our claim on a grassy hillside, cheering loudly when the other fans across the park cheered Our knowledge of the rudiments of the game was limited at best, but we managed to eat and drink and laugh a lot. We also got to know each other.

ave Dillon's first year college soccer team was an eclectic group, to say the least. Some had a great deal of experience, some had very little. What they did share was a love of the game and a desire to play. And play they did...all over North and South Carolina it seemed. Their travels in the fall took them from tiny Louisburg to bustling Spartanburg to Brevard. Even more important than soccer, it sometimes seemed, was who sat where in which van. It was important that each player had enough room to sprawl with her pillow (and frequently a blanket or bedspread). Sleep on the long trips was a top priority. Even before sleep though there was something else. FOOD! Honestly. FOOD! This team was food obsessed. There were a few vegetarians, a few who only ate meat and potatoes, a few who would eat anything, and a few who just had really weird taste. On the field Coach Dillon knew the game and how it should be played. Off the field his greatest challenge was how and where to feed his ravenous team Fast food places were not an option because several team

Ably coached by Kurt Gilliland otherwise, known as Mr. G., the team won a few, lost a few and enjoyed after the game meals at the players' homes and in fine area restaurants. A few of the more experienced players used the fall league as a way to stay in shape and gain field time before the spring season. Coach Gilliland put his vast prior knowledge of soccer to good use.

New students in the high school and college alike were granted a respite from the usual orientation hoopla when they boarded two chartered buses for a day at King's Dominion Amusement Park in Virginia.

High school and college? These girls regressed, giggling all the way, to five year olds, eager to ride every single ride at least once. What is it about fresh air and sunshine that makes everything funnier than normal and allows people to be seen in a different light? It is easier to be giddy and frolic when you are in a place where nobody seems to care how silly you are. he day was October 2nd, the time, 10:12 a.m. Pittman Auditorium seats were filled by students, parents, and friends. All that could be heard were the encouraging shouts of enthusiastic Saint Mary's girls, and perhaps the rapid pounding of ten nervous hearts. Up on stage, behind the only obstacle preventing a glimpse of the newly-colored outfits were the Cold Cuts of 1995-96. As the red velvet curtains separated at center stage, students leapt to their feet, clapping and screaming as they welcomed this year's Cold Cuts, clad in the new colors of cantelope and electric-royal blue. After feasting their eyes on the splendiferous Cold Cuts, the audience listened eagerly to old and new songs, a full 45 minutes of pure Cold Cut entertainment.

Following a long and prosperous tradition of over 35 years, the Cold Cuts is a washtub band. Although it started so long ago, today's Cold Cuts follow the basic traditions of those of 1961. Very necessary parts of their wardrobe are the straw hats, t-shirts, and overalls, imitating the basic look of the original

Cold Cuts-straw hats, madras shirts, and Bermudas or overalls. For the past several years, 9 girls have been chosen at tryouts at the end of their freshman year. They perform together for the first semester of their sophomore year, then hold another sophomore tryout session at the beginning of the second semester. They add the number of girls chosen to the Original 9, and perform together throughout the last semester. This year's Original 9 are Kelly Livingston (hot dog), Ann Dial McMillan (washboard), Deborah Aycock (morracas), Sarah Vanmeter (pres., crazy stick), Becca George (sec./tres., washtub), Phebe Hubbard (bongos), Jennifer Rasmovich (tamborine), Jamie Griswold (sticks), and Danna Daniely (piano). Their advisor is Mary Virginia Swain, making this her 6th year of working with the Cold Cuts.

Never let it be said that the Cold Cuts don't work hard. Performing on campus and off, they practice for up to 2 hours a night, Sunday through Thursday. They make appearances at campus events, as well as company conventions, nursing homes and hospitals.

I'll Be There For You!

What artistic ability!
The weekend at Kelly's lake-house was obviously a productive one.

"We did it!"
Surviving the 1st performance is always a test, but this year's group passed with flying "colors!"

But Cold Cuts isn't all work and no play. The weekend hefore the Showing of the Colors was spent hy these excited 10 at Kelly's lakehouse in Charlotte, painting their instruments.

Showing of the Colors is perhaps one of, if not the higgest show of the year. The colors are new each year, and kept secret from the entire campus until the big day. There is even a contest held beforehand to see if anyone can guess what they are. This year's group opened with 11 songs, showing how tight these 10 are. It ended with the inevitable "cuts," when each Cold Cut teased an audience member as part of their signature song at the end of the show. Future Saint Mary's girls beware-the Cold Cuts are watching you!

Sing it!

t the end of the first three days of classes the ninth and tenth graders left town. It wasn't that they were run off, they were going to the beach. Yes, it was the height of hurricane season, and yes, there were several potentially dangerous storms out to sea, but this group was undaunted by a little wind and a little rain.

Of course, Mr. Gilliland was separated from the other vans before we ever got out of Raleigh and of course, the trip took over an hour longer than it should have because of all the stops that we made. The motel, despite repeated calls to be sure all was well, did not have all the rooms in a block. Mr. Mathieu, Mr. Ham and Mrs. Hill all were assertive. It was late, the students were hungry, it all got worked out. Except when the girls went to get supper at the fast food stop right in front of the motel, there were some visiting Marines who saw thirty-six girls, a white van with blue lettering that read "Saint Mary's College-Raleigh, North Carolina" and put two and two together. Mr. Mathieu,

Mr. Ham and Mrs. Hill were assertive again.

After eating a continental breakfast by the pool, while battling winds so strong it was hard to hold onto a styrofoam coffee cup, the intrepid crew made its way to the ocean. It rained. We went back to the motel, changed into dry clothes and visited Historic Beaufort. It rained some more. We went back to the motel, changed into dry clothes and boarded the Crystal Queen for a moonlight dinner cruise. It rained yet some more.

It rained Sunday while we had a study skills workshop. It rained while we took a mini-tour of Bogue Banks and Emerald Isle. It rained all the way back to Raleigh. But, here's the thing-nobody cared. We laughed and sang and talked and did exactly what the weekend was supposed to allow us to do. We got to know each other.

To the Sea, To the Sea

Don't you love the wind in your hair?

Even though it was a windy trip to the beach, Ellie Childs and Christy Fiorilli enjoy themselves by walking along the ocean front.

The assertive leaders take a breather. Finally, Mr. Gilliland, Mr. Mathieu, Mr. Ham, and Mrs. Hill, can relax and enjoy themselves.

Hurricane anyone?

Rough surf couldn't keep these girls away! Hannah Bason battles the waves and the strong undertow at Atlantic Beach. Soon to become great friends, Molly Hassinger, Elizabeth Smith, Sarah Yarborough, and Laina Rawat await the fun that an evening on the riverboat will bring.

he high school tennis team recorded another winning season, posting an 8 win, 3 loss record, finishing tied for second in the Piedmont Athletic Conference of Independent Schools.

The team also tied for fifth in state competition featuring 16 teams from independent schools in North and South Carolina. Leading the way was nationally ranked and PACIS Player of the Year Jeni Burnette. Jeni was undefeated in PACIS play and runner-up in the number one singles position at the state tournament. Jeni finished her career at Saint Mary's undefeated in regular season play. She will attend UNC-CH on a tennis scholarship. She teamed with fellow senior LuAnne Box to win the number one doubles championship at the state tournament. Both were named to the News and Observer's All Star Team. Graduating with Burnette and Box were number four singles player Nancy Cobb, number five singles player Tracy Harris and number three doubles team member Courtney McCormick. While at Saint Mary's High School these seniors had a combined dual team match record of 19 wins and 3 losses. Members of the 1995 squad returning will be Meredith Wiggs, Annie Mason, Donnell Turner, Alice Manning and Tiffany Repokis.

These girls have a strong case of Disco Fever. 70's day, during Spirit Week, was a favorite.

t the end of September a week was set aside to encourage all students to really get into the Spirit of Saint Mary's. In addition to picnics (of course we were going to eat) each day had a designated theme. We were geeks, caricatures of our mothers in the seventies, parodies of ourselves on campus, wearers of weird hats. Each hall in the dorms and each grade among the day students created banners that were hung from the buildings and clothes lines on

back campus. Winners were announced at the end of the week, with third Pennick and the ninth graders being among them.

MC shows its true colors

"Lon will do foolish things, but do them with enthusiasm."

here are several things one can always count on in Raleigh in October. The leaves begin to turn and SMC students commit to The Walk for Hope. Getting folks up early on a Sunday morning is never easy, but the students, bleary eyed and stumbling, assembled outside Holt Student Activities Center to get ready for an eight o'clock departure. Both vans and a caravan of cars made their way to the Angus Barn. For

those who wanted to worship, an informal church service was held on the banks of a lake. Others took the opportunity to limber up in preparation for the six plus mile walk down highway 70, through Umstead Park and back. For the faint of heart, there were vans to return them if they could not make the entire route.

The Walk for Hope was organized by employees of the late Thad Eure, Jr. as a way of honoring his memory and his commitment to discovering ways to treat mental illnesses. In just a few years participation jumped from hundred of walkers to thousands.

We have been proud to be a part of the success of the walk. Our contributions have made a significant difference

And just how, one might ask, did all these girls allow themselves to be persuaded to rise so early on a Sunday morning? Not to diminish philanthropic urges, but the fact is that at the conclusion of the walk there was a feast provided by Fat Daddy's Restaurant. There were hamburgers, hot dogs, potato salad, and all the trimmings. Of course the students crawled out of bed and walked six miles. Who wouldn't?

"It's what time?"

Louise Harris and Dean Jones show that the early bird always gets its worm, or t-shirt in this case. These two brave souls woke with the sun (almost) to make sure all the walkers got their Walk for Hope t-shirts before the big walk.

"Huh?"

Lawren Townsend is rewarded for her spectacular efforts with a hearty meal. Most walkers were famished after the long walk, and all were greatly appreciative for all the chow. Lawren's friends, sitting next to her, agree. Just kiddin, Lawren!

I did it!

Amy Morrisey is clearly pleased as she crosses the finish line. Every person who walked that day felt a warm rush of excitement that can only happen when we do something for someone else.

A smile of accomplishment Tracy Ivey has that special glow as she relaxes her muscles, having "walked for hope."

Ahh! Exercise

This group of highly organized Saint Mary's girls stretch their muscles before the start. Good idea, girls.
Aren't we Saints smart?

What a turnout

Since when did Saint Mary's begin admitting students in their forties? No, this crowd isn't all Saint Mary's. The Walk for Hope brings people from all across the country. The line of walkers went on for what seemed like miles!

"J can remember walking as a child.

It was not customary to say you were fatigued.

It was customary to complete the goal of the expedition."

y the end of Octoberfest young ladies who had previously thought themselves fearless were piling four and five to a room to seek safety in numbers. It made no difference whether

the fact that he might be was enough to make some of the most stalwart souls wary.

Golden October gave us another reason to celebrate. Halls in the dorms were turned into cobweb shrouded caverns. Students were actually given knives and encouraged to carve on punkin heads. They also participated in a balloon shaving contest.

We bobbed, we picnicked, we wrestled (SMC girls sweating? You bet!), we laughed and we told ghost stories around the campfire. One of the eeriest points during the week came when a strange creature arrived on campus to tell fortunes. Professing to possess a sixth sense, this mysterious person startled all who fell under her spell. Who on earth (or not) could it have been?

And did Aldert Smedes visit? There are those who live on third Smedes who would swear to it. How else to explain the rustlings, the thumpings, and the whispers? After all, it was almost Halloween. You decide.

Friday, October 27th to see what life
here is truly like. Well, not really.
Everybody was on their best behavior, especially the
faculty who welcomed parents into their classrooms.
An abbreviated class schedule allowed parents to sample
a typical academic day with their daughters.

A sumptuous buffet was served at lunch, during which the Cold Cuts performed, after which parents had an opportunity to meet with their daughters' teachers if they desired. Many students took advantage of the afternoon hours to show their parents some of Raleigh's hot spots-the mall, Cameron Village, any where that sold clothes or shoes.

Dr. and Mrs. Jenkins entertained the visiting families at a Sundown Social on their back lawn. This was followed by an unwritten tradition. When parents are in

town they must take the girls out to dinner. What typically happens is that parents meet up with friends they have not seen in some time, or roommates' parents get together to visit for the first time. The family dinner expands and then expands again so that often twenty or more wait in line at the 42nd Street Oyster Bar and Grill or the Angus Barn. The parents have the best time of all! Which is as it should be, because without them, none of us would be here.

No, they're not students!

Parents Weekend brought folks from many different locations to be with their daughters for the occasion. Many participated in class, much to some of the students' dismay!

t's calling Papa John's or Gumby's at 1:00 in the morning to order pizza and breadsticks, going to visit your friend down the hall, just because you need a quick five-minute study break. Hard to get used to at first, life in a dormitory is a unique experience that requires a lot of tolerance, patience and good humor. But it is also an experience that will help you learn a lot about dealing with others, allow you to make lasting friends, and will prove to be one of the most valuable experiences any person could ever have.

Within the confines of Saint Mary's four active dormitories: Penick Hall, Cruikshank Dormitory, Smedes Hall, and West Rock, activity is predominantly rampant and there is always someone around to talk to. As the year goes on, each building progressively becomes a home to each of its residents. And although each girl's room is original and different from every other girl's (even if they have the same floor plan), there is still a sense a unity and community that comes from living in a dorm. In fact, so much so that sometimes, your dorm is worlds away from the others on campus.

What dorm life is really about are the little things. It is the late night eating with friends. It is being able to walk down the hall and borrow clothes, books, and coffee pots, knowing that someone will have what you

need. It is the gossiping, the games, and the jam sessions. It is knowing that if you are ever lonely, all you have to do is stick you head out the door and you'll find someone. Yet it's also the security of knowing that when you want your space, you can retreat to your room.

Dorm life is the constant ringing of phones and trying to figure out if the last ring was your own phone. It is sharing bathrooms and trying to nap in the afternoon, when the girls above you sound like herds of elephants. It is waking up to other people's alarm clocks, and getting up the same time your roommate goes to bed. It is having a mattress that sags in the middle, and living off dining hall food. It is being able to smell the popcorn the girl downstairs just popped, being best friends with your R.A. and having personal jokes with your R.D. It's knowing the security guards better than your own family (well, almost). It's the hall meetings, the dorm socials, and the "Know the Code" process. It's getting to know people you never knew existed in a unique way. It is getting the chance to become life-long friends with the people you've lived in close contact with for four years. And what better way to make friends who will be friends forever? Dorm life is unlike any other in the world.

Black, anyone?

Allyson Scott, Raven McDonald, Jennifer Lewis and dates show that black formalwear is in. Only a few dresses were anything other than black. Must be a nineties thing!

Remind me why I'm here?

Anita Hume looks thoroughly pleased to be up in the middle of the night with all these crazy kids! Or maybe she's just wondering about those two love birds in the back...

Gettin' Wild!

Do the Jungle Boogie!

An unidentified creature even made an appearance at our Formal. Oh, wait, that's a person. Dancing sure does bring out the animal in people. Who is this guy, anyway?

Aw, gee!

Sarah Givens and her date (a significant other?) humor the photographer. The table was set up with swings for seats, making it difficult for the less coordinated to have a swig of Coke. It looks like Sarah mastered the technique.

s my date and I entered Gilley's, the club where the Saint Mary's Fall Formal was being held, my gaze moved slowly around the room to admire the decorations, so creatively put up by the high school and college SGA. I handed my tickets to Elizabeth Warren while my date took our coats to be hung. On a quick trip to the bathroom, I saw a couple girls from my English class who looked as if they were hiding from someone. I quietly greeted them, and secretly wished I could join them. Returning to my date's side we gradually made our way to the dance floor. I stopped briefly to say "Hello" to a few of the chaperones-Allison King, Tracey Jones, Louise Harris, and Mary Virginia Swain. Feeling somewhat tired with a mild headache, I didn't feel much like dancing. But, having promised to meet and dance with my friends, I reluctantly made my way toward the noise. My right foot touched the dance floor, and POW! Instant transformation! Whoa! The band was jamming, the bass

was pumping, the people were boogying, and before I knew it, so was I. My headache miraculously disappeared, and my stomach forgot all about the meal I'd just eaten. I was a new woman! How did this happen? I guess I had just realized that **this** was Where the Wild Things Are!

Saturday, November 4th, found Saint Mary's girls styling their hair, checking on dinner reservations, and doing last minute shopping for hose. Things were **nuts** But 10:00 p.m. hit, and these same girls were beautifully put together-hair, hose, and all. Dates or no dates, they came to dance, hang out with the boys, and see their fellow classmates transformed from gum-chewing, pajama-wearing students to princesses dressed to kill. (And some **surely** came to check out the guys!)

With Dean Jones' stern but friendly warning to be safe firmly in their heads, Saint Mary's was represented well and the girls had a night to remember forever.

ho are you going to call? Ghostbusters? Well, yes. The members of the Granddaughters Club are called Ghostbusters, and Aldert Smedes is their mascot. The club is an old one, beginning years ago, whose members are all direct descendants of women who attended school here in the past. This year's old members are Phebe Hubbard (pres.), Nancy Hill (vice pres.), Kari Syrdahl (sec./tres.), Karen Edmundson, Sarah Barbee, El Boykin, Frances Carstarphen, Nancy Cobb, Anne Gibson Connell, Margaret Davis, Sarah Dayvault, Sarah Givens, Elizabeth Hill, Eliza Jenkins, Liz Johnson, Alice Manning, Anne Mason, Laura Raynor, Cee Sidler, Cooper Thornhill, Carrie Upchurch, Sarah Viola, and Katherine Wrenn. Their advisors are Margaret Glaze and Ibby Connell.

The Granddaughters' walk took place right before Halloween on October 23, as part of Octoberfest. The old girls, clad in their white t-shirts and ghost masks, retrieved the new members, all waiting nervously in their rooms. After running around the bell tower several times, they entered the chapel, sat down, and listened to the three officers tell the story of the club. After being inducted, the new members' task was to fill little bags with candy (which were later put in each campus mailbox).

The Granddaughters Club stands solely for Saint Mary's tradition and spirit, recognizing each student who has extended her line of family tradition. Each year, these Granddaughters set up and host the annual Lighting O' the Grove before Christmas.

This year's new ghostbusters are Whitley Adkins, Winfrey Amis, Hannah Bason, Jill Blanchard, Caroline Davis, Alice Eggleston, Charlotte Floyd, Louise Harris, Molly Hassinger, Nancy Northcutt, Amanda Rinker, Leigh South, Lea Starling, Carolyn Stettinius, Ann Urquhart, and Marion Yates. Congratulations, girls! The tradition continues...

Who Ya Gonna Call?

Faster, girls!

The old Granddaughters certainly didn't waste any time in putting the new girls to work! As their official initiations, their task was to fill a bag with candy for every single Saint Mary's student.

Aldert Smedes was...

As the ghostbusters look on in the choir seats, the three Phebe, Kari and Nancy explain the meaning of the Granddaughters Club.

Let's Get 'Em, Guys! The old girls (very!) enthusiastically set out to get the new ghostbusters.

Amanda and Caroline lead the pack (or are they trailing?) around the bell tower. Inductions are crazy things, aren't they?

The bell tower had a peaceful moment before the run around it. Rev. Smedes watched over the walk that night, and seemed to have been pleased with this year's girls.

"Fortunate are the people whose roots are deep." Agnes Meyer

aps had its annual walk this year on October 9. The night was somewhat chilly, but that certainly didn't keep an audience away. The girls knew where to go for the walk, some because they've seen it before, others because they were notified on almost every wall on campus! Everyone met at the steop in front of Cruikshank to see the white pick-up with the old members in back-Jennifer Rasmovich (pres.), Arny Palmer (sec./tres.), Keri Beth Ratterree (DOT), and Kim Hassell (original member). A few of the members from last year made an appearance. But-notice a lack of vice president there? That's because Jamie Branch, appointed to the position at the end of last year, has gone on to the University of Michigan. Oops! So, at the walk on this night, Maps decided that a new vice president was to be chosen among the others. The new members chosen for this year's group were Christy Hall, (vice president), Becca

George, Stephanie Phillips, Lindsay Jones, Ashley Barber, and Carolyn Stettinius.

Maps is a social club with a secret meaning. The symbol of Maps is a little red circle, called the "Dot," which resembles the little red dot on 7Up cans. But this gal wears sunglasses and a black cowboy hat. On the day of the walk, the members wear the same-black sunglasses, a black cowboy hat, and cowboy boots. On the day following the walk, as part of initiation, the new members must also wear this outfit, though their faces are a bit more outrageously done with remnants of red marker. Popular words to write with as permanent a marker as can be found are "Maps," "I love Maps," or maybe a few pic tures of Dot to embarrass these new inductees, or at least remind them of what they are now a part of.

The Spiders Crawl Again

ls this a spider web? Whatever,. None of these ladies dressed in black looks too happy. Wonder what the problem is?

ay be it was the sight of Mr. Crews in a tutu that made you laugh the hardest. But even if it wasn't that particular act that did it for you-did any of us imagine that our teachers, professors, Deans, and even our President would be up on a stage making us fall off our seats laughing for an hour straight? Our most respected, distinguished, and scholarly faculty providing laughs for us at their own expense? Well any of us who saw this year's Faculty Follies assembly in November sure can believe it.

From the minute that Louise and Blanche came out as emcees for the event dressed in pajamas pretending to be the "typically dressed" Saint Mary's student, we knew that there was going to be a lot of poking and making fun of people and things that most of the Saint Mary's community is familiar with. For example, everyone could fully relate to the hilarious impressions Mr. Gilliland and Mr. Lathan did of other faculty members at a staff meeting Along with Dr. Esthimer's "German Substitute Teacher", and the "student" emcees, we all got a good spirited laugh.

There was also the unforgettable performances of Saint Mary's very own "Sister Act" nuns. Without any of us knowing, Dr. Bauso Dr Esthimer, Mr. George, Mr. Gilliland, Mr. Lathan, Mr. Reed, Ms. Thompson, and yes, President Jenkins made up a group of singin nuns brilliantly conducted the mother superior himself, Dr. Quinn. As if that was not enough of a sight to behold, who can forget the lovely folk singers we found out that Ms. Hill, Ms. Peacock, and Chaplin Ellington were. Their little trio was as entertaining as it was funny.

Many of Saint Mary's most beloved faculty contributed to making this event such a success and enjoyment. Mr. Edwards and Ms. Stark sang a beautiful duet, and Mr. Crews and Ms. Gunn entertained with their cross-dressing version of a Russian Ballet. And thanks to the organization of Mrs. Posey, the Faculty Follies assembly went perfectly (unless there's something we don't know?!?). It was a most enjoyable hour.

As Mr. Lathan approaches the podium...wait. That's Mr. Lathan behind the wall. No. Wait, who's the guy with the vest? Okay, I've got it. Mr. Lathan is walking to the podium, and that's his mom to the left. Yeah, that's it.

"I will follow him..."

Dr. Quinn takes the part of Whoopie Goldberg's character as the choir-leading nun in "Sister Act". And with these singers, even Whoopie couldn't have done it better. These untamed crooners are Dr. Esthimer, Dr. Bauso, Mr. Reed and our own Dr. Jenkins.

Don't they work here? Dean Hume makes his announcements while those two unidentified students (who have amazing resemblances to Blanche and Louise) return to class.

The Russian Dancers During this first act of the assembly, the audience came to realize that these were not really the alleged Russian Dancers. They were not only from Saint Mary's, but they were Mr. Crews and Ms. Gunn. But can you tell which is which?

lights were cancelled, airports closed, roads blocked, and classes cancelled. One needed sunglasses merely to walk outside to the car because of the incredible glare on the ice (not that he/she could drive anywhere anyway). Classes at Saint Mary's were supposed to start on January 8, upon the return of students and faculty from Christmas vacation. But a certain someone who likes to nip at people's noses had other plans for us.

Many who live far enough away couldn't get back to school in time because of cancelled flights or icy roads. Some school buildings were shut down anyway, so classes were postponed until Wednesday the 10th. Old Jack took a break for a couple of days, until Thursday night, when he decided he hadn't had enough fun. More ice formed on critical surfaces, roads being the most critical at this point. Classes were cancelled on Friday, and while some brave girls ven-

tured their way to a free three day weekend, others took advantage of the ice that doesn't come around very often. They grabbed beat up laundry baskets, lunch trays and lap tops, hitting the soccer field and circle on Park Road. If much younger kids weren't in school, they were covering every inch of ice in the Triangle. That weekend found most Saint Mary's girls in the dorms, probably making a record. On Friday of that weekend, it took one group 45 minutes just to walk to IHOP, which is right across the street!

Because it seldom snows in Raleigh, this weekend was one to take advantage of and remember. Think about it-how often does Mrs. Campbell miss class? Though it made it extremely difficult and dangerous to go anywhere in a car, it was like an adventure. "Forced" to stay on campus, together with all the friends we missed so much during break-Jack Frost had his fun, but I think we had the last laugh.

tudents who have been here for four years receive special recognition. They came for their junior and senior years in high school and then elected to complete their freshman and sophomore years in college at this institution. The status of a four year girl is a special one since it usually indicates a strong devotion to the school.

he college marshalls are elected by their peers. Dressed in long white gowns, they are present at all official college functions. Their conduct serves as a model for the rest of the student body. One of their most stunning appearances is at graduation, when they lead the faculty and student processionals, then are responsible for dropping the handkerchief and pronouncing the college closed at the end of another year.

he moms began arriving Thursday afternoon. They kept coming all day Friday. One could hear shrieks and laughter all over campus. Friday night girls and their mothers went out to supper, usually in droves that included entire halls and then back to the mothers' motel rooms to giggle and share confidences.

On Saturday, following a sumptuous brunch in the dining hall during which the Cold Cuts performed, mothers and daughters settled down in Pittman Auditorium for a fashion show. The models? Saint Mary's girls of course, at their most beautiful. Clothes DO make the woman, as a little blush and a little lipstick worn over outfits from Dina Porter, Beanie and Cecil, The Fashion Bar in Lumberton, and others shops proved. Amid a backdrop of ferns, statues of little girls, and blooming plants, our girls strutted and preened to classic beach tunes. The theme, fittingly enough, was "My Girl."

And then there was CASINO NIGHT! Everybody on campus who was not a mother of a currently enrolled student was pressed into service. Everybody on campus who was married to

someone who was not a mother of a currently enrolled student was also pressed into service. The dining hall was transformed into a Las Vegas gaming room, with dealers and roulette spinners dressed in black and white, complete with arm bands and visors. The din was unbelievable as mothers and daughters squealed when they won and groaned when they lost.

On Sunday there was a special mother daughter chapel, followed by lunch in the dining hall. Whether the moms came from Vermont, Florida, Richmond, or Raleigh, it was a lovely weekend that will provide fond and lasting memories.

he 1996 College Tennis Team met the challenge of it's most competitive schedule in recent years, coming away with an 8 win, 4 loss record which included wins over Louisburg, Greensboro College, Mount Olive, Spartanburg Methodist, Salem and Peace College. Sophomores Holly Evans, Shaner Garner, and Stephanie Phillips were joined by freshman newcomers Whitley Adkins, Ashley Barber, Ryan Demer, and Jennifer Locke. Adkins led the team at the number one singles position, posting as 11-0 record and was the team's MVP. Demer, playing either the number 5 or 6 singles position finished match play with a 9-1 record. The team qualified as Regional Champion to participate in the national championships of the National Junior College Athletic Association at the Division I level. Sophomores Evans, who won her last three singles matches to round out four years of team tennis at Saint Mary's, Garner, last season's MVP, and Phillips, who played on Saint Mary's teams for three years, will leave gaping holes in next year's line-up.

Togetherness was the key to a wonderful 1996 season for the college tennis team. (L-R) Ashley Barber, Shaner Gal Jennifer Locke, Holly Evans, Stephanie Philips, Ryan Demer and Whitley Adkins.

The times we've shared- the love we've known, the ways we've cared, the ways we've grown, the friendships built we'll surely cherish, the bonds we've made shall never parish, the experiences of life have come to us all, and each has made its mark not matter how small. The tears, the laughter, the dreams and the smiles, make all the time seem so much worthwhile. And now as we end and begin again, we glance once more at those pictures within, and hope that someday we can look back and see, what we gave each other, precious moments
